(50 Solved Sentence Arrangement MCQs)

## Verbal Ability Series

### Part I: Strategic Tips for Sentence Arrangement

---

- **Identify the Opening Sentence:** Look for an independent sentence that introduces the main topic or a noun. It usually does not start with pronouns (He, She, It, They) or transition words (Therefore, However, But).
- **Mandatory Pairs:** Look for sentences that must follow each other. For example, if one sentence mentions a problem, the next often discusses a cause or a solution.
- **Noun-Pronoun Relationship:** A sentence containing a specific noun (e.g., "The Committee") will always come before a sentence using its corresponding pronoun (e.g., "It" or "They").
- **Chronological Order:** Look for time-based clues like dates, "First", "Then", "Later", and "Finally" to establish the sequence of events.
- **Conjunction Clues:** Sentences starting with "Thus", "Therefore", or "Finally" are typically concluding sentences.
